

## Additional information for RFQ CSM01/22—Kulin Hockey Oval Lights

The Kulin Hockey Oval is also the Kulin Cricket Oval and is also transformed into a second football oval for carnivals. As such lighting for this project can only be installed on the west side of the oval, as depicted above.

We understand that this is not the preferred configuration however it is all we can install so that they do not interfere with the other uses of the oval.

We also understand that this may not actually light the marked field however hockey do understand that they may need to move their goals into the lighting area for training purposes.
