# CEO CORNER

---

Welcome back to another CEO corner for 2021 and the Kulin Bush Races have been run and won. A huge crowd for their comeback event. Congratulations Tom Murphy and the team on another fantastic event. Town was heaving all week with visitors and caravans. A great spectacle as usual.

Congratulations to outgoing Councilor Rodney Duckworth on being awarded WALGA's Long and Loyal Service Award at the recent Local Government Convention in Perth. This is great recognition of Rodney's contribution to not only Council, but the wider community. Well done Ducky.

This month the Shire and various community groups will be hosting a few community events as follows:

- Kulin Town Fire Brigade - Truck Demonstration Friday 15th October 4PM.
- Kulin All Ages Precinct – Stage 1 Opening Friday 22nd October

2:30PM.

- Kulin Pre-Harvest Community Sundowner and Integrated Planning Update Friday 22nd October.

We also have our Council Meeting on Wednesday October 20th where new Councillors will be sworn in. Later this month the President and Vice President will also attend the WALGA Central Country Zone Meeting in Wandering.

On the roads front Judd and his crew have finally received approval from Main Roads to finish the intersection with Jilakin Street and Gorge - Rock Lake Grace Road, hopefully this doesn't disrupt harvest traffic too much. Works on the intersection of Muller Road and Fence Road will also be complete soon, hopefully both intersections will provide much improved road safety particularly for heavy vehicles.

Hopefully as many people as possible were able to take advantage of Kondinin's

COVID19 vaccination clinic this week. I'm sure people within the community have and are entitled to have varying views on vaccinations. Consensus around the State, the Nation and the World is that the best chance of resuming normality and learning to live with and manage COVID19 is to get vaccination rates as high as possible.

I believe the FRC is going to be a hive of activity this month. Bowls season kicks off this weekend with Open Day and the Ladies Classic. Pennant tennis starts this weekend, the cricket season next weekend, and junior basketball also firing up. We've got engagement parties, weddings and birthday parties locked in as well, which I'm sure will have the FRC rocking. Good luck to Ruth, Manon and Jordy hosting all the events.

As always plenty happening in Kulin, until next time safe travels.

Garrick Yandle - CEO

## 1080 baiting: a must for pest control but a risk to domestic pets

### Travelling with your dog?

**Be aware that essential baiting programs using 1080 are carried out all year round across regional Western Australia.**

**Domestic dogs are at risk and baiting can be carried out at any time** on pastoral leases, Department of Biodiversity, Conservation and Attractions (DBCA) reserves, unallocated Crown land, agricultural land, and freehold farms. 1080 baiting is a major reason pets are not allowed in most national parks. **You must exercise caution when working within or visiting these areas.**

- Warning signs are placed at entrance points on all land where baiting is being carried out and at other relevant places where applicable on pastoral, agricultural, DBCA, and unallocated Crown land.
- **Do not rely upon the presence of warning signs.** Signage may not be in the immediate vicinity and can be weather damaged, removed or destroyed.
- Baits may remain toxic for many months.

### What is 1080?

- 1080 (sodium fluoroacetate) is an odorless, tasteless white powder and is incorporated into fresh, dried, or processed meat baits aimed at controlling wild dogs, foxes, feral cats, and feral pigs.
- Rabbit bait is 1080 incorporated into oats. While this bait may not be favoured by your pet, a poisoned rabbit presents a significant risk to your pet through secondary poisoning.
- 1080 is a naturally occurring poison found in 40 plant species. Western Australia has 39 of the 40 plant species growing naturally in the south-west. Native species have developed a tolerance to 1080 making it a more selective poison pest control option. To date, 1080 is the most efficient, humane, and species-specific pesticide available for declared pest animal control in Australia.

### Why bait?

- 1080 baiting is **essential** for pastoralists and farmers to manage their livestock enterprises, as well as to conserve our wildlife.
- Without baiting, stock are targeted by wild dogs and can be killed, causing emotional and financial distress to producers.
- Introduced predators eat many native fauna. Over the past 100 years, more mammals have become extinct in Australia than anywhere else in the world.

### How can I keep my dog safe?

Keeping your family's best friend safe is your responsibility

- Domestic pets **must** be always kept close and under control.
- If you take your dog with you when you travel in WA's regional areas, keep it on a leash or use a muzzle.
- Prior to entering land, please consult with individual pastoralists, DBCA and/or farmers.
- The safest option is to not take your dog at all but leave it in the safe hands of a carer or at a boarding kennel.

# THANK YOU!

The Kulin Bush Races committee would like to thank all our amazing volunteers for the huge effort to put on the best weekend yet! It is a mammoth commitment in time, energy and resources, but that doesn't stop the Kulin community working together to get the job done.

Thank you to all our local businesses and the Shire of Kulin. The extra pressure that the bush races puts on you all leading up to and over the weekend is intense. You continue to work hard whilst still smiling and looking after our visitors.
