The CCZ currently has only two (2) Shires that are eligible for the regional allowance.				
While the allowance is determined by several factors, it does seem to be restricted to over 250km from a Regional Centre. The second level of allowance is approximately 300kms from a Regional Centre.				
If the distance was reduced to 200kms, three (3) more Shires would be able to access the allowance.				
If it is reduced to 150kms an additional five (5) Shires could access the allowance.				
For the Shires without a regional allowance, the ability to attract and retain CEO's is hampered as CEO's can earn significantly more, simply by where they are located. In the example of Koorda to Mukinbudin, less than 60kms has an allowance of over \$30,000.				
LG does not need an explanation of the allowance, the allowance needs to be reconfigured.
